Time:	*Sundays, 19:00-21:00*	*Wednesdays, 15:00-16:00*
Week	**Guided Session**	**Check-in Session**
1	Introduction, Key Question, Modeling Development	ensure participants understand the goal/plan for the practice series
2	Model Ideas & Group Formation	confirm the groups have a plan to work together
3	Structure Planning & Example Code	assess initial model plans and coding abilities
4	Model Version 1 & Parameter Values	review initial models & parameters
5	Model Version 1 Results & Critique	troubleshoot models and results
6	Model Version 2: Making Changes to the Model	troubleshoot models and results
7	Presenting Final Model & Interpretation	assess group presentation plan

Guided Session Description:	**Check-in Session Description:**
Rachel will lead a discussion on the topic, using materials shared with the participants. Starting in Week 2, participants will form groups to work collaboratively on a model (i.e. each group will prepare one model). The sessions will be highly interactive. At the end of each session, participants will have a specific task to complete before the next session.	These sessions will be dedicated time for participants to meet with Rachel and to work together. Rachel will check in with at least one member of each group, to get an update on the group's progress, answer any questions, and help with any issues.
